Greenhouse space costing

The cost of space usage is currently based on a rate of \$0.35/m²/day and simplified to a mean monthly charge (Tables 1 and 2). The minimum charge is a full table for one month. Charges will be billed by JV for each quarter: January 1-March 31, April 1-June 30, July 1-September 30, and October 1-December 31. Users approved for annual billing will be charged on an April 1-March 31 cycle.
